

POWER MANAGEMENT COCKPIT

THE EYE OF THE BUSINESS

The Challenge

To have the right information at the right time to support your business decisions

Day to day work of a manager:

- Read dozens of different reports to analyse and manage the business
- Spend enormous time in gathering and organizing information
- Critical decisions based on outdated and Static information
- To have different Values for the same indicator

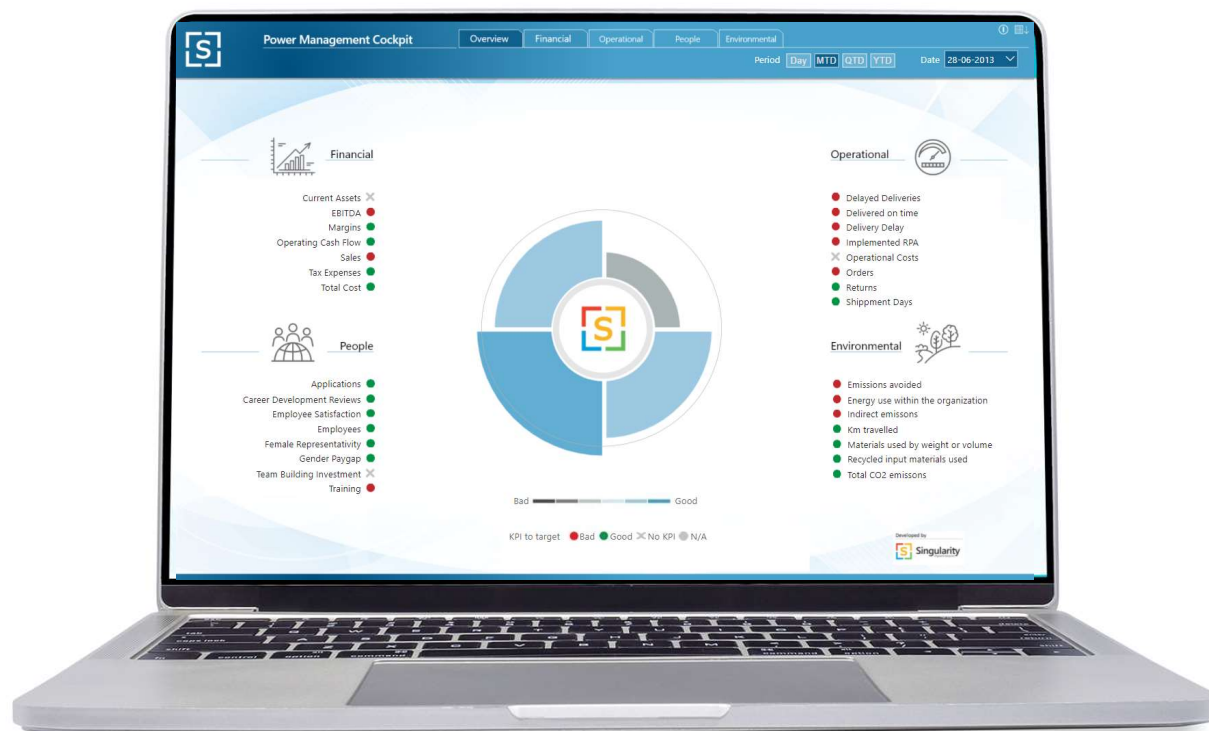

The Solution

Power Management Cockpit is the “EYE OF YOUR BUSINESS”

In just 30 seconds, any manager can view the **X-ray** of the company’s most important management indicators

and at the same time deep dive on the most relevant areas of your business

The Benefits

Focus on the most important thing: control your business

- **Make Informed business decisions**
Supported by trustable, meaningful and relevant business indicators
- **Uncover and explore**
Find new business insights that creates value
- **Experience a Centralized overview**
Top Managers use the exact same KPI and Data Feeds
- **Keep Dynamic and Updated**
Dynamic comparable data from any timeframe, always on and connected
